

ABOUT SUSTENA INC.

Founded in 2012, the purpose of SUSTENA is the delivery of EPC services and distribution of PV system.

The headquarter is located in Kanagawa, Japan with three branches in eastern and northern parts of Japan. The SUSTENA has an independent subsidiary in Philippines, established in 2015.

Clients of SUSTENA are active project developers, EPC companies and solar investors with whom a total installed capacity of over 20.5MW and O&M capacity of 21.9MW had been reached by 2015.

OUR MISSION

"Clean, green and renewable energy --- This is the core philosophy and mission that SUSTENA is founded on.

The technology and training required to make possible the development, engineering and delivery of solar powered products and services to every Japan and Philippine household and industry sector is a paramount fulfillment that SUSTENA endeavors to support and focus on."
